ABOUT ME

As a dedicated Junior Full Stack Developer, I specialize in crafting flawless web solutions with JavaScript, React.js, and Redux for captivating front-end experiences. With expertise in Express, I build robust back-end applications and seamlessly integrate external services through APIs. I'm skilled in MongoDB and SQL for efficient data management and prioritize security with ironclad authentication measures. With exceptional interpersonal skills and proactive problem-solving abilities, I bring a dynamic edge to any team, committed to excellence and collaboration.

WORK EXPERIENCE

Full Stack Developer Intern at Innobyte Services

During my three-month Full Stack Developer internship, I gained extensive experience in both front-end and back-end web development. I successfully undertook various tasks, showcasing my ability to learn and apply new knowledge effectively. In the final phase, I led a significant project: creating a comprehensive User Management API. This involved all stages of development, from planning to testing, and encompassed functionalities like user registration, authentication, and role-based access control. Completing this project not only strengthened my full stack development skills but also boosted my confidence in tackling future challenges.

P R O J E C T

E-COMMERCE WEBSITE

- I contributed to developing a dynamic E-commerce website focused on clothing, improving user experience with features like user- friendly product browsing, secure payment gateways, personalized user accounts. Additionally, I implemented an intuitive admin panel for streamlined management of product listings, inventory tracking, and order fulfillment. Leveraging my expertise in React.js, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, and Mongoose, I optimized the website's performance and enhanced its functionality.

User Management API

- I have proficiently developed a robust User Management API with comprehensive Authentication and Authorization functionalities, encompassing user registration, login, user profile management, and OTP-based login. Additionally, the API includes email confirmation with OTP upon user signup. Notably, I also designed and implemented an Admin panel, restricting access to authorized personnel for viewing and updating user data. Leveraging my expertise in React.js, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, and Mongoose, I successfully executed this project, showcasing my adeptness in full-stack web development.

RESTAURANT WEBSITE

- I crafted a user-friendly restaurant website with login/signup, table booking, and catering service reservations to simplify the dining experience for customers. Additionally, I've curated an engaging user experience by incorporating dynamic elements like interactive menus, enticing image galleries showcasing the restaurant's ambiance, and subtle animations throughout the site. The designed and implemented only the frontend of the restaurant website using HTML, CSS, and JavaScript.

PortfolioT WEBSITE

- I designed and developed a personalized portfolio website utilizing React.js, Tailwind CSS, and Aceternity UI. This project served as a showcase of my skills and expertise in front-end development, demonstrating my ability to create visually appealing and responsive user interfaces. By integrating modern frameworks and UI libraries, I enhanced the user experience and effectively highlighted my professional achievements and projects. This project not only showcased my technical proficiency but also my creativity and attention to detail in designing a sleek and functional web presence.

EDUCATION

Bachelor of Information Technology(Graduation)   Jun 2019 - April 2023

Guru Nanak Khalsa College of Arts, Science & Commerce, Matunga, Mumbai

Higher Secondary Certificate (HSC)   Jun 2017 - April 2019

Guru Nanak Khalsa College of Arts, Science & Commerce, Matunga, Mumbai

Secondary School Certificate (SSC)   Passed In April 2017

Our Lady Of Good Counsel High School, Sion, Mumbai.

CERTIFICATION

Full Stack JavaScript Web Development

I am proficient in Full Stack JavaScript Development, certified by RST Forum in Dadar, with expertise in HTML, CSS, JavaScript, React.js, Node.js, Express.js, Redux, Tailwind CSS, Chakra UI, MongoDB, and Mongoose for Authentication and Authorization.
